

Cotswold Wildlife Park Poem

In The Rainforest

Can you come up with some actions for the poem as a class?

Think about how the animals would move, would they crawl or leap or fly? Can you find out some facts about these animals?

I am a cheeky Squirrel Monkey and I like to leap
and play,

I use my tail to balance and climb around all day!

I am a slow sleepy Sloth hanging upside-down as
I dream,

But I am really good at swimming, much better
than I seem!

I am a little Mossy Frog with green and lumpy
skin,

My skin helps me to camouflage in the Rainforest
I live in!

I am a colourful Wrinkled Hornbill swooping high
above the trees,

My bill helps me to call so loudly that everyone
hears me!
