### **Conservation** (*noun*)

The careful preservation or protection of something.

### **Endangered** (*adjective*)

A species at risk of extinction.

### **Evolution** (*noun*)

The gradual development of a living organism.

### **Adaptation** (*noun*)

How an animal has changed to survive in its home/habitat.

Use the words above to complete the sentences below

1. Without \_\_\_\_\_ efforts a species could become extinct.
2. The process of \_\_\_\_\_ shows how a species may have developed from earlier forms.
3. Ring-Tailed Lemurs are \_\_\_\_\_ due to deforestation in Madagascar.
4. One \_\_\_\_\_ of a Meerkat is that they have a different alarm call for each of their different predators.

## SPOTLIGHT ON CONSERVATION TRAIL

# Spotter Sheet

Can you spot these **endangered** animals on your visit to the Park? Tick them off once you've seen them.

Southern White Rhino

Ring-Tailed Lemur

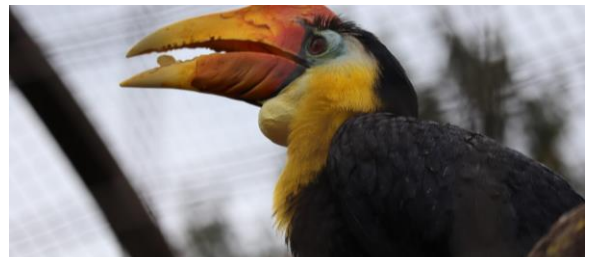

Asiatic Lion

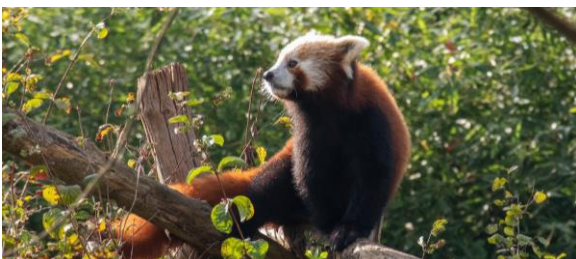

Bactrian Camel

Greater Bamboo Lemur

Wrinkled Hornbill

Red Panda

Read each animal's information sign to find out more about them. What is their main threat in the wild? Research more when you get back to school.

## SPOTLIGHT ON CONSERVATION TRAIL

# Projects at the Park

Can you find out more about the conservation projects that the Park supports for each of these animals? Try asking a Keeper, reading the signs or look on our website.

Southern White Rhino
